

LEAN SIGMA WHITE BELT

4 CPD points

ABOUT

Stockil Continuous Improvement deliver Lean Sigma courses which are QQI approved by Munster Technological University and CPD accredited by Engineers Ireland.

These courses are delivered by Continuous Improvement experts who educate and empower the student to achieve operational effectiveness within their organisations using Lean Sigma. There is a strong emphasis on the practical application of Lean Sigma methodology.

WHAT IS A LEAN SIGMA WHITE BELT

Lean Sigma is a very successful methodology for continuous improvement. Lean Sigma is based on the elimination of waste, reduction of variability and improvement in operational efficiency through engagement and respect for all staff.

Lean Sigma White Belt communicates the objectives of your organisation with respect to Continuous Improvement using Lean Sigma. It provides all staff with a knowledge of the terminology and reasons for the initiative. The program is delivered in line with your organisation's goals.

COURSE OBJECTIVES

Participants will be provided with a clear understanding of the reasons for the Lean Sigma initiative in your organisation and how they will engage with it. They will be advised of the objectives of your organisation using the four key themes of Lean Sigma (Voice of Customer, Respect, Elimination of Waste, Reduction of Variation) and how they can play their role. It sets the basis for continuous improvement project team development within the organisation.

COURSE CONTENT

Introduction to Lean/ Six Sigma	Lean/ Six Sigma Tools
Voice of the Customer	Respect and Involvement
Elimination of Waste	Reduction of Variation
DMAIC/DMADV	Project Deployment

COURSE DURATION

4 hours

ENTRY REQUIREMENTS

None

WHO SHOULD ATTEND

It is recommended for all staff as it sets the basis for project team development within the organisation.

FEE ON APPLICATION

What Our Corporate Clients say

Damien Carroll, Human Resources Manager of SR Technics Airfoil Services

SR Technics Airfoil Services in Cork repair commercial jet engine airfoils for some of the world's most prestigious airlines and overhaul shops. The work carried out at the facility is exacting, critical and highly skilled. When we began our lean journey we were fortunate to team up with CAMMS CIT. They have provided our staff with training and education on their courses including White Belt, Yellow Belt, Green Belt and Black Belt in the past ten years. **We have found these courses to be very well fitted to our business and an excellent investment in our workforce. The delivery, scope and content of the courses more than meet our needs** and we have found that any suggestions by us or our staff for program improvement has always been taken on board. **In addition, They have been very willing to assist us with advice and expertise on many of our continuous improvement projects.**

Tim O'Mahony, General Manager, Irish Guide Dogs for the Blind

Mark Stockil has been involved with Irish Guide dogs over the past 6 years as we started our Lean journey. During that time and even up to the present I have found Mark's involvement beneficial to us. Through his mentorship we have identified where and who should get training, at what stage we are at and what changes we should make to either quicken up or redirect our efforts to support the journey.

Mark is highly respected by the Management and Staff of the Charity and has been very influential in us pursuing our Lean training through Munster Technological Institute (MTU). I myself have undergone Green and Black Belt training with Mark, having completed an MBA some time back with Smurfit's. More staff have completed the Yellow Belt Training. I feel the mix of theory and practical employed by MTU under Mark supervision has really **delivered an excellent result for Irish Guide Dog for the Blind. He is an invaluable and trusted advisor whose knowledge is second to none.** I look forward to his continued support on this journey as we move to the next stage and progress our Lean journey.

David Smith, Operational Excellence Site Lead, West Pharmaceuticals

I first met Mark when I was doing my Lean Sigma Black Belt with CAMMS CIT. I registered with Springboards to do this course. **I found it to be an excellent course. Mark is an excellent tutor with many years of hands on Lean Sigma experience.** During the course we needed to get placement with a company to complete our project. I was out of work at the time but managed to get placement with West Pharmaceuticals. That was over 6 years ago. West Pharmaceuticals gave me a permanent job because of the very successful project that I completed as part of the course. As part of our Lean Sigma training strategy in West Pharmaceuticals we have had many candidates complete Lean Sigma training. **I highly recommend any of the courses that Mark provides.**

What Our Students say

'Very enjoyable and a good overview of the philosophy of Lean Sigma'

'Good orientation. I have the foundation now to move to the next step'

'I learnt about the importance of defining the problem rather than trying to think of solutions immediately'

'Excellent practical course. Well delivered for staff at all levels'

'There were elements I could take and start now to effect small change'

'Very informative. I will be able to apply this to my daily job role'

'Good mix between theory and practise'

'Engaging and thought provoking'

'Great trainer'

'Mark was really good at provoking thoughts on our current projects and how to apply quick wins'

'Made me think of ways I currently do my job and how it could be better'

'Very enjoyable and informative'

'Very good introductory course'

'I liked the positive focus on the content'

'Very informative and helpful facilitator'

'Very useful course'
